Professional Experience

Freelancer

Smartlogic Pvt. Ltd., Varanasi, India (Remote)

November 2024 - December 2024

I developed an image similarity program to ensure accurate package delivery for online shopping platforms. By leveraging AI, the system matches package's x-ray images at warehouse with the database, minimizing delivery errors and improving customer satisfaction. My role focused on integrating and optimizing the solution for real-time, scalable performance.

Education

KIET Group of Institutions at Ghaziabad, India

Bachelor of Technology in Computer Science Expected in July 2028

Accomplishments

- District-level Coding Competition at DPS, Varanasi - First
- Dainik Jagran District-level Debate - First
- Participation in CBSE National-level Science Exhibition
